

## **Information of the Institute (About Institute) With Photographs :**

In 1949, the then Chairman decided to have a hospital at Mumbai Port Trust, consequent upon refusal by other hospital to reserve beds for Mumbai Port Trust Patients. This vision became a reality with the outdoor section commencing from 03.11.1968 and the indoor section of 23 beds from 22.12.1969. With the advances in medical science and simultaneously rising cost of medical aid, there was a continuous demand for increase in hospital beds. In 1993, the bed strength went up to 306 beds. But after introduction of SVRS 2001, it was reduced to 256. Currently the hospital has a bed strength of 241 beds.

The hospital achieved recognitions as a Teaching Institute for the Post Graduate Diploma courses run by the College of Physicians & Surgeons and National Board of Examination.

The First batch of CPS students commenced from 1<sup>st</sup> February 1996. At present, our hospital is recognized for following specialities in CPS courses- Paediatrics, Obst. & Gynecology, Orthopaedics, Ophthalmology, ENT, Dermatology, Anaesthesia, Radiology.

The Medical Department also caters to primary health services through its four peripheral dispensaries situated in and around major housing colonies of Mumbai Port Trust and work places.
